DESCRIPTION

Azeotropic mixture Powerful solvent for all degreasing operations as well as hot or cold washing of machine parts. Especially recommended for eliminating inks, resins, traces of glues or adhesives.

APPLICATIONS

Rinsing of ink ducts in offset printing and flexography.
Soaking of spray nozzles for resins, primers, paints, foams, glues.
Soaking of brushes, spiked rollers, and tools for the application of polyester resins and gel coats.
Soaking and scrubbing of stainless steel coating or photo-engraving cylinders, or deflector rolls.

Cleaning of coating or printing machines using a cloth.

Cleaning of resin application machines and painting booths using a cloth.

Centrifugal washing of tanks and mixers for resins, monomers, and master mixtures.

Cleaning by spraying and brushing of manufacturing tanks and mixers.

Use on solvent parts cleaners, pure or diluted in water, according to the nature of the paints and resins.
